

Carrier Corps to have big impact in 2012

It's a busy time for members of the Carrier Corps—the group of activist letter carriers leading the charge for grassroots and political action to solve our problems in Washington, DC—and NALC is recognizing the most active Carrier Corps members for their service.

More than 6,000 letter carriers have signed on as Carrier Corps members and are busy lobbying legislators, writing letters to local newspapers, attending rallies and signing up new COLCPE supporters. Some of them have now reached Gold or Silver status, demonstrating a high level of commitment to advancing the letter carrier agenda on Capitol Hill and in every neighborhood in America.

Carrier Corps members who have completed at least three activities reach Silver status; completing five activities earns Gold status. These carriers will receive special recognition in this issue and in future issues of *The Postal Record*.

Carrier Corps members get recognition for participating in any of the following activities, which must be approved NALC or AFL-CIO events:

- ✓ Canvassing, phone banking, work-site leafleting and other member contact, including collecting signatures on petitions.
- ✓ Signing up new Gimme 5 automatic contributors for COLCPE.
- ✓ Signing up new e-Activist members.
- ✓ Attending a rally, protest or march.
- ✓ Attending a political or legislative training.
- ✓ Lobbying a member of Congress on NALC-specific issues through a lobby visit, a fundraiser or sending a letter.
- ✓ Working on a political campaign for a candidate or cause supported by NALC.
- ✓ Organizing an event at the branch or state level that helps others complete any of these actions.

As 2011 was drawing to a close, Carrier Corps members had logged a total of 11,377 legislative and political activities. They were led by the 580 Carrier Corps members who reached Gold status and 641 who completed enough activities to achieve Silver status.

“We simply cannot succeed in our legislative efforts without grassroots participation by letter carriers, and Carrier Corps members are leading that effort by example—especially those who reach Gold and Silver levels,” President Fredric Rolando said. “I urge every single letter carrier to follow their example. Letter carriers must get word to Washington that the Postal Service and our jobs matter, and that we aren’t going to take assaults on either sitting down.”

Carrier Corps members log their activities in a form on the NALC website. State chairs must verify and approve the activities before participation credit is given.

“Participation has continued to increase even further under our new NALC Carrier Corps 2012 program,” observed California State Association President John Beaumont. “This new format not only encourages more members to get involved by giving them a T-shirt; it is designed to recognize those who continue to volunteer their time by recognizing Gold- and Silver-level participants.”

Kansas State Association President Rod Holub said, “I do believe the greatest benefit we have seen from the Carrier Corps program in Kansas is that the program has fostered one-on-one contact between union members.

“Our members who are capable of grab-the-bull-by-the-horns activism,” Holub added, “see their desire to lead energized by the competition of earning more Carrier Corps points.”

For more information about how to participate in Carrier Corps or to log your activities, go to nalc.org and click on the Carrier Corps button on the home page. ✉
